He also provided an informational sheet containing characteristics about each of the three tree species we have on order. The group decided to walk each of the parks and make decisions about where to plant each tree, and what species to plant as the tour progressed. Each chosen location was marked with a white flag with the species marked on it provided by Sargent's Nursery. Mike agreed to create a map showing locations of the trees for both parks for the minutes. Copies of the tree location Maps are attached as part of these minutes.
