

NOTICE OF WATER TESTING OPPORTUNITY

The Village of Pepin is looking for multiple residential locations to volunteer for a free water test. These tests are part of routine DNR requirements that all Wisconsin Public Water Systems are required to do.

Locations must be residential homes in the Village of Pepin built before 1983 and have copper piping from the water meter up to the kitchen faucet. We would like to have these locations identified before the end of May.

If you are interested, please contact our Water System operator or the Village clerk.

Dave Vosen or Ron Goeldner - 715-495-6221

Clerk-715-442-2461

Please provide your street address and contact details if you have to leave a message.
